DETAILED ACTION

REASON FOR ALLOWANCE

1. After further search and thorough examination of the present application claims 1-19 are found to be in condition for allowance over the prior art of record.

The following is an Examiner's statement of reasons for allowance: the claimed invention relates to cellular wireless communication system; and more particularly to the processing of data communications received by a wireless terminal in such a cellular wireless communication system.

The first cited reference, Fukasawa et al (U.S. Pat. 4,701,923) disclose an adaptively coded data communication system with half duplex and full duplex function. The second cited reference, Dudley et al. (U.S. Pat. No. 5,754,754) discloses a transmission order based selective repeat data transmission error recovery system.

However, none of the cited references either singular or in combination discloses "a system for implementing Incremental Redundancy (IR) operations in a wireless receiver comprising: at least one processing device that is operable to receive analog signals corresponding to a data block, to sample the analog signals to produce samples, to equalize the samples to produce soft decision bits of the data block, and to initiate IR operations, the at least one processing device operable to perform a substantial portion of Physical (PI-IY) layer operations and the Media Access Control (MAC) layer operations of the system, to investigate whether IR operations are required for the soft decision bits of the data block, and to initiate IR operations based upon the investigation."

These limitations, in conjunction with all other limitations of the base claims were not

shown by, would not have been obvious over, would have been fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
